## The Six Kingdoms of Life

You will be rotating to different stations with a partner to read about the different kingdoms that we use to categorize living things.

Please complete the table while at each station and then answer the following questions in complete sentences

Station	Kingdom	Prokaryotic or Eukaryotic?	Autotrophic or Heterotrophic?	Unique Characteristics of organisms within this kingdom	Examples of organisms
1					
2					
3					
4					
5					
6					

### Follow-up Questions:

1. Which kingdoms have organisms with prokaryotic cells?

\_\_\_\_\_

2. Which kingdoms have organisms with eukaryotic cells?

\_\_\_\_\_

3. Which kingdoms have both unicellular and multicellular organisms?

\_\_\_\_\_

4. Which kingdoms have the most complex organisms?

\_\_\_\_\_

5. Define heterotroph and give an example of a heterotrophic organism.

\_\_\_\_\_

\_\_\_\_\_

6. Define autotroph and give an example of an autotrophic organism.

\_\_\_\_\_

\_\_\_\_\_

7. Which kingdoms do you think has the most interesting organisms? Explain your answer.
